

BAILEY

BOXES

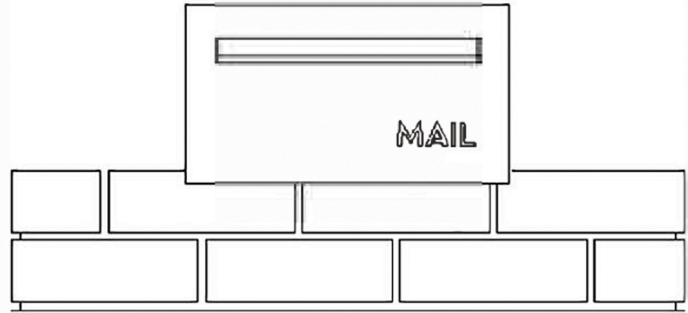

**THANK YOU
FOR BUYING THE
MELTON FROM
BAILEY BOXES.**

**IF YOU LOVE IT,
LET US KNOW.
EVEN BETTER,
TELL YOUR
FRIENDS AND
NEIGHBORS.**

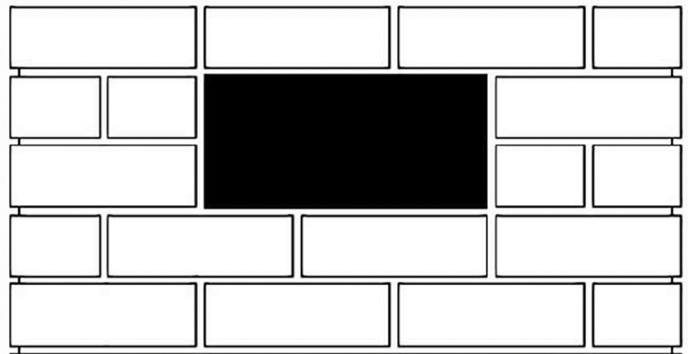

**IF YOU HATE IT...
WELL, HATE IS A
STRONG WORD.
MAYBE YOU
NEED A HUG.**

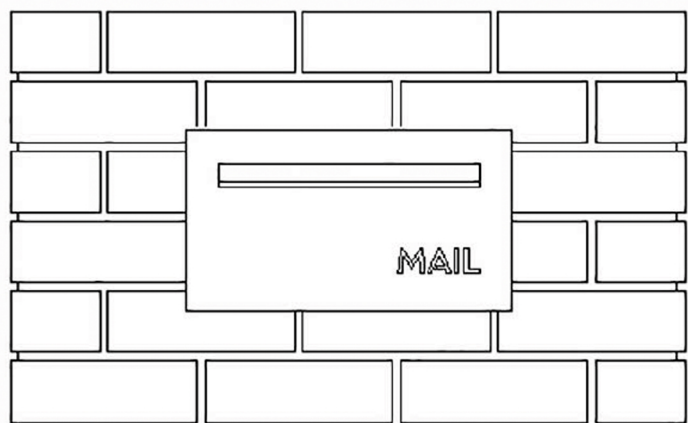

THE MELTON INSTALLATION INSTRUCTIONS

- 1) Connect the inner sleeve to the front and back face of the Melton.
- 2) Extend the sleeve until the front and back face sits flush with the brick foundation already in place.
- 3) Mark the bricks where you'd like the sleeve to be... forever and ever.

- 4) Get to brickin'. Build around the inner sleeve, making sure it's placed correctly to attach the faces. The faces should be placed last... because they're beautiful.

- 5) Once the brick mortar has dried, connect the faces back to the inner sleeve and push the faces inward until they sit flush against the brick.
- 6) Call your neighbor over and boast.
